I authorize Orthopedic Rehabilitation Specialists Inc. to release all information necessary to secure payment.

## INFORMED CONSENT FOR PHYSICAL THERAPY

Physical therapy involves the use of many different types of physical evaluation and treatment. At Orthopedic Rehabilitation Specialists, we use a variety of procedures and modalities to help us to try to improve your function. As with all forms of medical treatment, there are benefits and risks involved with physical therapy.

The physical responses to a specific treatment can vary widely from person to person. It is not always possible to accurately predict your response to a certain therapy modality or procedure. We are not able to guarantee that our treatment will help the condition for which you are seeking treatment. There is also a risk that your treatment may cause pain or injury, or may aggravate previously existing conditions.

You have the right to ask your physical therapist what type of treatment he or she is planning based on your history, diagnosis(es), symptoms and testing results. You may also discuss with your therapist what the potential risks and benefits of a specific treatment might be. You have the right to decline any portion of your treatment at any time or during your treatment session.

Therapeutic exercises are an integral part of most physical therapy treatment plans. Exercise has inherent physical risks associated with it. If you have any questions regarding the type of exercise you are performing and any specific risk(s) associated with your exercise(s), your therapist will be glad to answer them.

**I acknowledge and understand the statement above. I understand that my treatment program will be explained to me by Orthopedic Rehabilitation Specialists, and that I am able to ask any question or state any concerns. I understand the risks associated with a program of Physical Therapy as outlined to me, and I authorize treatment.**
